

**Monthly Overview of National Industry Trends and Occupancy Report** 

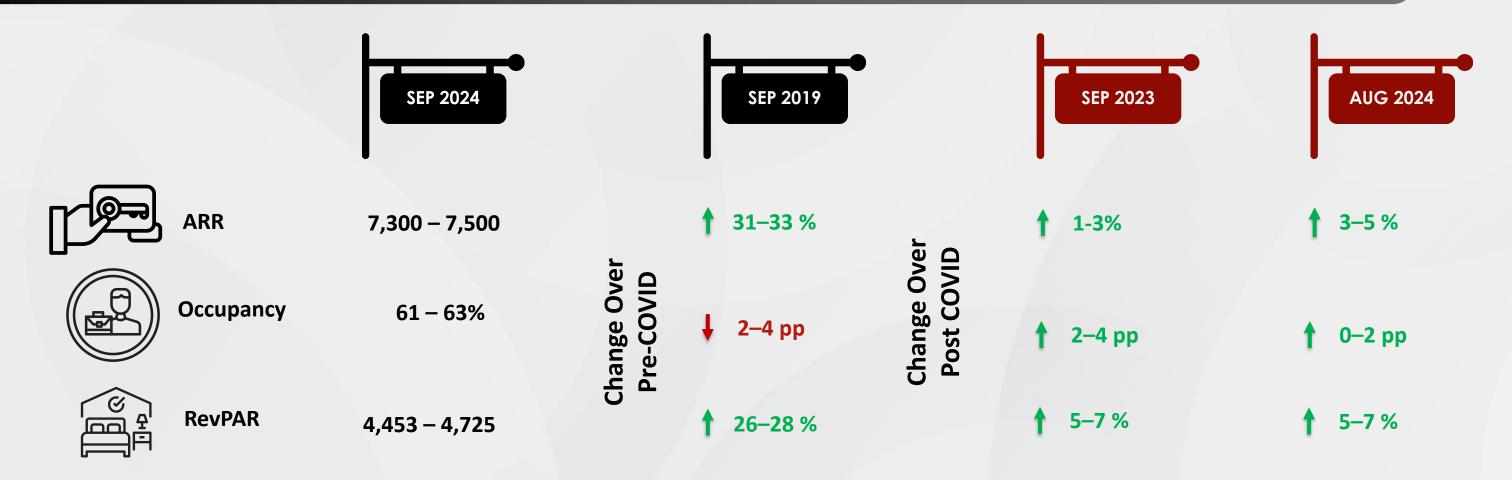

#### India Hotel Sector Performance

(September 2024)

- Occupancy rates in September 2024 witnessed steady year-on-year growth and remained stable compared to August 2024.
- Average Rates (ARR) also continued its upward trajectory, with the year-on-year growth rate now starting to stabilize.

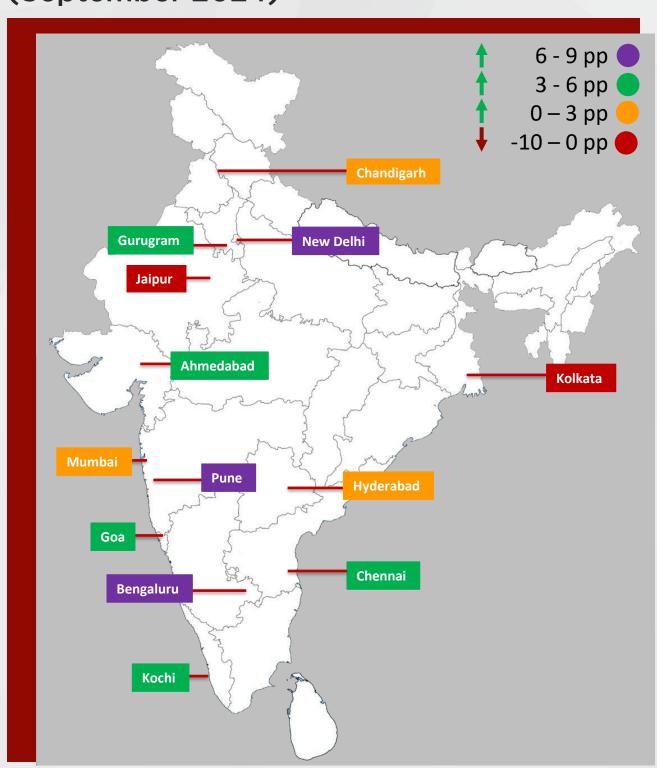

# Occupancy Trends Across Key Indian Markets

(September 2024)

Sustained demand growth has led to consistent improvements in occupancy rates across key markets in September 2024 compared to the same period last year.

Bengaluru led the way with a notable 8-10 percentage points (pp) year-on-year increase in occupancy rates, followed by New Delhi, which recorded a 6-8 pp growth.

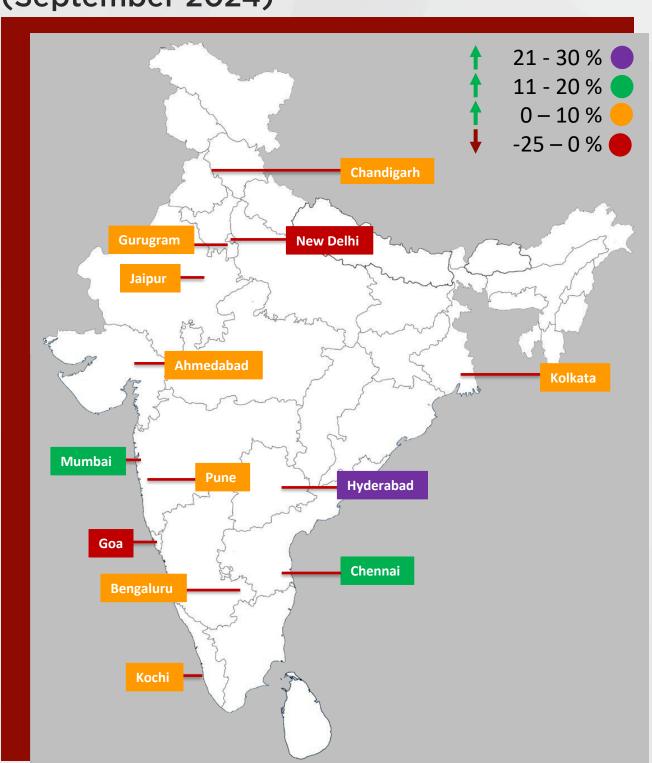

On the other hand, Jaipur and Kolkata were the only markets that saw declines in occupancy rates of around 0-3 pp.

## ARR Trends Across Key Indian Markets

(September 2024)

Source: HVS Research; year-on-year change; Data for Calendar Year

The average rates showed varied trends across markets.

Hyderabad posted an impressive 22-24% year-on-year increase in average rates, while Mumbai and Chennai recorded gains of 10-12%.

Both Goa and New Delhi displayed a contrasting trend during the month. Goa's occupancy increased by 2-4 pp, but average rates declined by 2-4%.

Similarly, New Delhi's occupancy rates rose by 6-8 pp, but the average rates dropped sharply by 23-25% compared to the previous year. This decline can largely be attributed to the G20 summit held the previous year, which temporarily boosted prices in the market.

## **Share Price Movement**

(as on 25<sup>th</sup> October 2024)

Company	Market Cap (Rs. Crore)	Share Price (Rs. as on 25 <sup>th</sup> Oct 2024)	Share Price (Rs. as on 25 <sup>rth</sup> Sep 2024)	Share Price Change (%)	52-Week High (Rs.)	52-Week Low (Rs.)
IHCL	98,437.46	667.1	709.95	-6%	720.6	371.45
EIH	22,735.11	369	372.15	-1%	566	205.3
