GUIDE TO THE COST GUIDE

by Warren G. Feldman, AIA, ISHC
CEO of Nehmer | Principal of HVS Design

The 2021 Hotel Cost Estimating Guide is the thirteenth edition of this comprehensive planning tool. Nehmer and HVS Design developed the Guide to examine construction and FF&E costs for renovations in each hotel tier. The Guide is intended to be just that - a guide to help provide approximate costs for your softgoods or full renovation with flexibility to customize your preliminary budget to fit your scope. As with any generic budgeting tool, the final costs for a specific project should be developed on a case-specific basis. Below are some tips to aid in directing you to get the most out of this helpful tool.

Overall

The Guide is divided into six hotel tiers. Each tier has an assumed hotel size and configuration from which the cost data is derived. The assumptions are a way for you to compare against your property to help determine which tier and hotel size it fits.

Once you have selected a hotel tier, you should determine if you want a quick budget number or want to develop a more detailed version of the budget. For quick numbers use the summary pages (Pages 12 and 13). If you want a detailed budget, then use the detailed numbers within the tier you have selected.

The next step is to apply the scope of your renovation to the forecasted numbers, having determined which tier your hotel falls under and determined your scope of work for the renovation. Let's assume you have a six-story, 200-room hotel that needs a softgoods guestroom renovation, but you are planning to keep the artwork, lighting, and soft seating. Due to the type of hotel, you know that your project falls under the Upper Upscale tier.

Softgoods Renovation

For a quick preliminary budget using the summary page only, you would use the guestroom softgoods renovation price for an Upper Upscale hotel in the cost range of between \$9,182 and \$12,551. Now, skip ahead to the adjustments section.

For a more detailed budget you would skip ahead to the Guestroom Softgoods Renovation for the Upper Upscale (page 64) category, and highlight each item that you are replacing including demo and FF&E installation. Each item has a cost range (low to high) and an average cost. Utilizing the average cost number will provide you with the general idea of the cost. Add up the select items needed for your renovation and multiply by the number of keys. This number will provide you with an approximate idea of how much it will cost to do a basic softgoods renovation including construction and FF&E.

Guestroom Softgoods Renovation

Assume guestroom area of approximately 15' x 24' and 7' x 8' entry / closet area (472 SF). Ceilings 9' AFF. Painted drywall.

GUIDE TO THE COST GUIDE

by Warren G. Feldman, AIA, ISHC

Additional Renovation / Full Renovation

The Guide provides an additional level of renovation costs in the event you want to do a full renovation or even additional elements of a full renovation. Armed with your softgoods renovation cost, you decide you also want to replace the beds, add a tile foyer to the entry, and get new televisions. Under the Upper Upscale Guestroom – Add for a Full Renovation category (page 64), you should highlight the three additions to your scope. Add the average costs associated with each line item.

Guestroom - Add for a Full Renovation

	RANGE		AVERAGE
Bedsets (Box Spring, Mattress, and Frame)	\$878.53	to \$1,134.45	\$1,006.49
Entry Area Hard Surface Flooring	\$790.02	to \$1,127.00	\$994.32
TV and Mount (HD LCD, including Programming Allowance)	\$1,336.16	to \$1,502.66	\$1,414.06
Guestroom Full Renovation Additional Cost Per Key	\$3,004.71	to \$3,764.10	\$3,414.86

Take the additional renovation costs and add them to your total softgoods number (before you multiply by the number of keys). Take the combined total of the softgoods and additional renovation item total and multiply that number by the number of keys to get the total construction and FF&E cost for your proposed renovation.

Total Guestroom Renovation Cost

	RANGE		AVERAGE
Guestrooms Softgoods Renovation Cost Per Key	\$9,181.83	to \$12,551.25	\$10,773.01
Guestroom Full Renovation Additional Cost Per Key	\$3,004.71	to \$3,764.10	\$3,414.86
Total Construction and FF&E Cost Per Key	\$12,186.54	to \$16,315.36	\$14,187.87

Adjustments

Once you have the construction and FF&E costs for your project, you also need to account for things not included in the costs above. As stated in the Guide, these costs do not include Professional Fees, Contingency, Operating Supplies + Equipment, Attic Stock, Freight or Sales Tax, the Contractor's General Conditions, Overhead and Profit, etc. Typically, the design cost of a project including the Architecture, Interior Design, Project Management, and Procurement make up about 10% of the overall budget. The freight and tax vary greatly by location and should be adjusted based upon your specific location. For the freight and tax calculation, assume that the FF&E costs are 50% of the costs of the construction and FF&E. For our sample project, we will assume it is a Midwestern location with 6% state and local tax. You also need to apply a contingency to the budget. If you are doing a quick budget, you might apply 15%. If you are doing a detailed version, it might be 10%.

The Nehmer and HVS Design Team would like to thank the above firms for the large amount of time they volunteered to provide us with unit cost data for each of the categories and sub-categories included in the Guide. Nehmer and HVS Design have successfully worked with each of these firms on past projects. All of them are well-known, regionally- or nationally-based contractors that specialize in the hospitality industry. These organizations are acutely aware of the crucial need for efficient operation in hotels with regard to noise and guest satisfaction, as well as the primary need to produce complete, guest-ready hotel rooms, broad areas of costs that will likely apply to most types of hotel renovations, and can provide preliminary insight when planning for such work.

DESIGNING TO A SCHEDULE

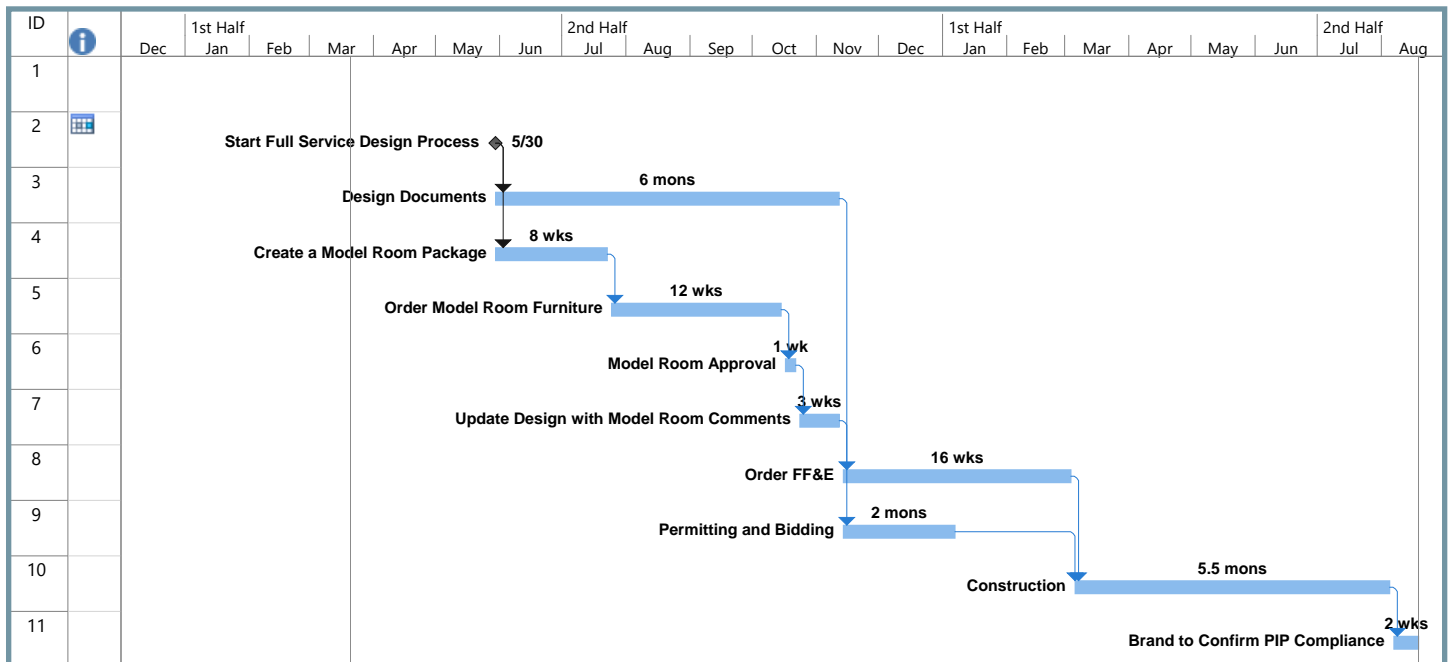

Created by Nehmer and HVS Design

Determining the budget for a project is just one step in the renovation process. It is also important to develop a thorough and achievable project schedule to help make the project a reality. We have put together the following conceptual schedules to serve as a guide when creating your own project schedule.

- Full-service Hotel
- Select Service Hotel – Prototype Design
- Select Service Hotel – Custom Design

These schedules are not intended to be one size fits all. Each project is unique. However, these durations can assist you and be a check point when developing your project-specific schedule.

VARIABLES

FUEL PRICES | Fuel prices experienced a decline based on COVID-19 and reduced consumption globally. Once travel begins to increase, prices are anticipated to increase back to pre-COVID-19 prices.

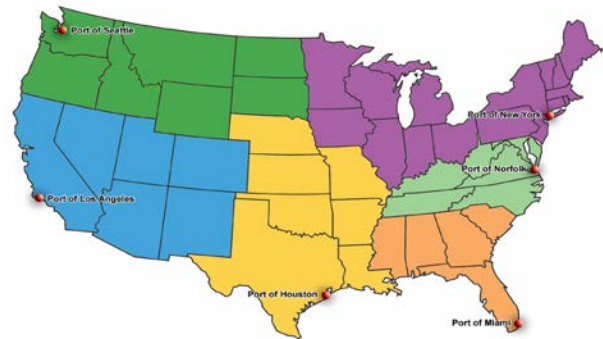

World liquid fuels production and consumption balance
million barrels per day

RECORD DECREASE IN INTERNATIONAL SHIPPING | Asia-Pacific containers held steady during COVID-19 as shipping companies reduced capacity. International air freight costs were at an all-time high as airlines decreased capacity.

ALTERNATE PORTS OF ENTRY | Utilization of alternative ports for casegoods entering the U.S. can reduce costs significantly. Lead time for transit from Asia increases approximately 2 weeks to travel through Panama Canal. CO2 emissions and fuel consumption are reduced as well as the risk of damage.

WAREHOUSE RATES | Warehouse rates will remain stable, but could see up to a 20% decrease in some markets due to COVID-19 business disruption.

Hotels in the United States are required to adhere to the ADAAG (The Americans with Disabilities Act Accessibility Guidelines), which outline the minimum standards to make places of lodging accessible to those of disabilities. In 2010, the Department of Justice issued revised regulations that all hotels must comply with since March 15, 2012.

Arrival Notice | An advisory that the carrier or forwarder sends to the consignee advising of goods coming forward for delivery. Pertinent information such as bill of lading number, container number, total charges due from consignee, etc. are included and sent to consignee prior to vessel arrival.
